Digital Press Sheet / B5109T

◆ Brief Introduction:

BOYUAN Digital Press Sheet B5109T is developed specially for the whole series of HP Indigo digital presses. It could be printed directly by the machine with high precision images, no Topaz coating needed.

◆ Using Method:

Printed directly by the HP Indigo digital press.

◆ Characteristics:

- Suitable for the whole series of HP Indigo digital presses.
- Excellent ink adhesion.
- No crack occurs on the printed images after lamination at high temperature.
- Good printing stability.

◆ Technical Parameters:

Item	Parameters
Surface	Clean and flatness
Dimensional Tolerance (mm)	±1
Angle Cut Tolerance (mm)	±1
Diagonal Difference (mm)	≤1.2
Thickness Tolerance (mm)	±10%

◆ Laminating Condition:

Laminating Unit	Temp(°C)	Pressure(MPa)	Time (min)
Heat Laminating	110~130	≥8	20
Cool Laminating	≤40	≥8	20

◆ Packing:

Outer: Carton Inner: PE bag

◆ Storage:

Keep package sealed and moisture-proof, room temperature between 5~30°C.

Keep horizontally, avoid oppress heavily and direct sun light.

Stacking height should not exceed one meter.

Shelf life: One year.

! The information is based on our practical production and result of testing. We suggest testing should be necessary before a batch use. We announce that the specification can not be used as the guarantee of the products.
